Publication of NVAO decisions (outside the database)

Decisions of the NVAO must be made public based on legal obligations. Because the NVAO database is linked to the higher education database (DHO), some decisions are not included in this database. These decisions cannot be found in the search function on our website.
The non-inclusion of decisions may be related to the nature of the decision, such as negative assessment decisions for institutions that are not yet recognised or decisions for foreign educational institutions. In order to comply with the publication obligation, these decisions are made available here, on this page.
